National Leaders with Local Expertise

Our unparalleled team of experts is dedicated to equipping agencies with the tools they need to focus on meaningful outcomes for the people they support.

This passion comes from extensive shared experiences. Whether you are an Executive Director, House Manager, Quality Assurance Specialist, Direct Support Professional, or somewhere else in the service provision cycle, our team has been in your shoes.

With team members around the country, we deeply understand the diverse and nuanced challenges of quality service provision. This drives the development of our software as well as our customer support.

We assist in addressing today's challenges for service providers, while helping agencies move toward the future with cutting-edge technology.

Our Commitment to Data Security

Data security is one of our highest priorities. We are committed to keeping your data secure from unauthorized access, making it available when you need it and providing a wide set of user permissions to prevent unwanted alterations.

Availability:

Our security and operations teams use a state of the art system that is monitored 24 hours a day, 365 days a year. We operate multiple sites to prevent interruption of service or loss of documentation to promote business continuity, even in the event of a disaster.

Integrity:

Therap combines cutting edge physical, administrative and technical controls to keep your data protected from unauthorized changes, ensuring that it is always reliable and accurate.

Confidentiality:

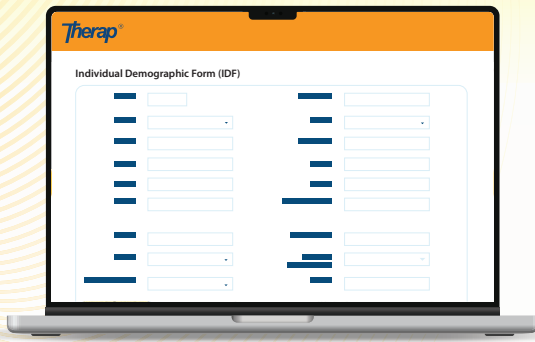

Therap's password protected system, with optional 2-Factor Authentication, comes with a robust set of user permissions. Your Therap Administrators are able to configure privileges and access rules to meet your team's security needs.

Security Fast Facts:

- Multiple Data Storage Sites to Prevent Interruption of Service
- State of the Art System Monitored 24/7, 365
- Meets Leading Compliance Standards
 - SOC2 Compliant
 - MARS-E Compliant

SOC2 Compliant

Intake & Assessment

Therap provides easy-to-use web based documentation, oversight, & billing tools for TCM and Support Coordination providers.

- Track Level of Care, Level of Need, Availability and More

Quality Assurance & Reporting

Assess organizational performance and comply with accreditation and regulatory standards.

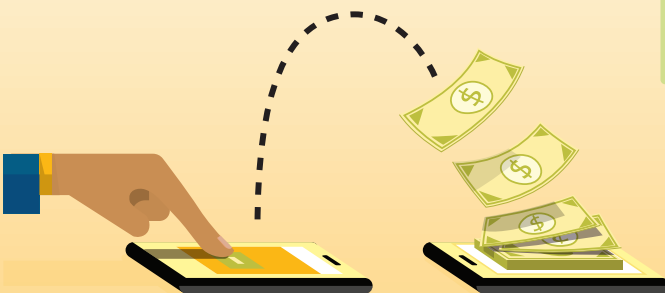

- Business Intelligence
- Data Transparency
- Access for Team Members & Surveyors

Billing & Claiming

Prevent recoupments and streamline billing processes from service documentation to claim reconciliation with Therap's billing tools.

- Based on Service Documentation
- Direct to MMIS/MCO/Insurance
- Professional & Institutional Claims

Person-Centered Planning & Case Management

Therap's Case Management System allows permission driven viewing of information.

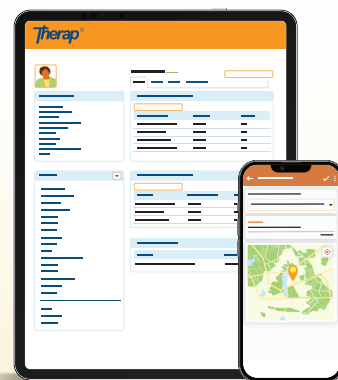

- Person-Centered Planning Suite
- Outcome Assessment Tools
- Authorizations
- Health & Care Plans

Service Delivery

Therap's configurable system is designed to help improve and streamline documentation for agencies of all sizes.

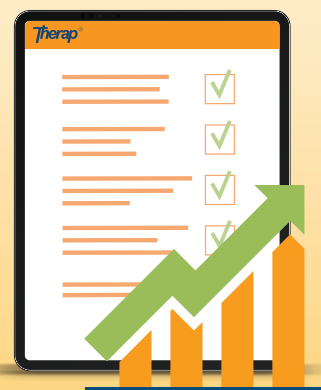

- Waiver & Provider Management
- Provider Documentation
- Health Care Records
- Incident Management, Investigation & Resolution

Goal Tracking & Attainment

Build and share support plans, track progress, and record outcomes for the Individuals you support.

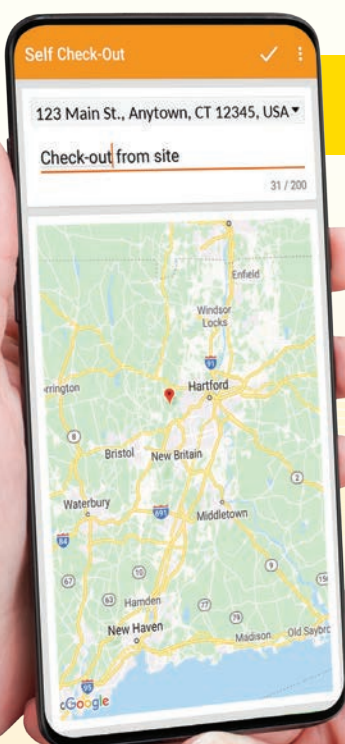

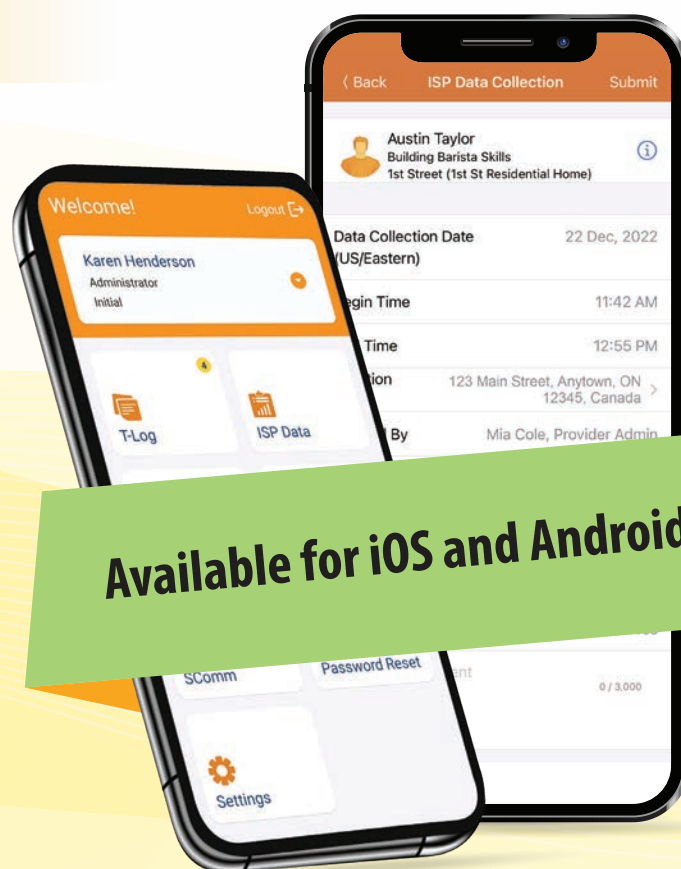

- Long or Short-Term Planning
- Individualized Success Criteria
- Enter Results via Web or Mobile App
- Multiple Reporting Options

Mobile Apps to Support Your Team on the Go

Therap's Mobile Application helps your team quickly access some of Therap's most essential modules from their phone or tablet including:

- Daily Notes
- Goal/Outcome Tracking
- Scheduling/EVV
- Time Tracking
- Secure Messaging
- Medication Administration Records
- Secure Video Documentation
- And More!

EVV Functionality Includes:

- Single-Swipe Check-In/Out
- Capture Documentation at the Point of Service
- Voice/Signature Verification Options
- Direct Integration with Service Documentation
- Create Electronic Billing Claims from EVV Data
- Offline Functionality

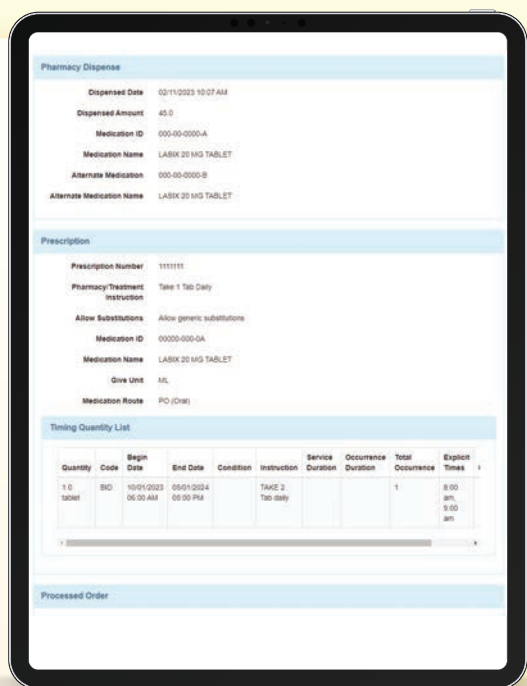

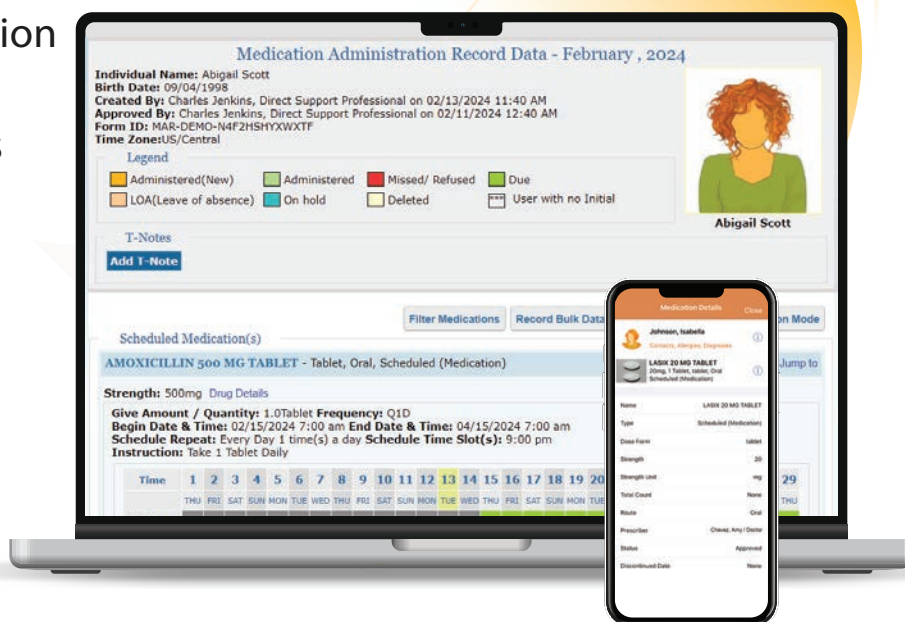

Versatile Health Tracking Solutions

With Therap's health management tools, Users can track a variety of health data, including nursing and health care supports and create detailed reports.

Medication Administration Record (MAR)

Therap's Medication Administration Record (MAR) Module enables Users to track medication passes and prescribed treatments.

- Drug Data Bank Interface
- Easy-to-Read Color Coding
- Search and Report Tools
- Mobile Option Included

Pharmacy Interface

Therap's Pharmacy Interface allows pharmacies to push "Pharmacy Messages" containing medication and/or treatment information for an Individual into a Provider's Therap system.

- Practically eliminates manual entry
- Reduces transcription errors
- Compatible with leading Rx systems

Secure Video Documentation

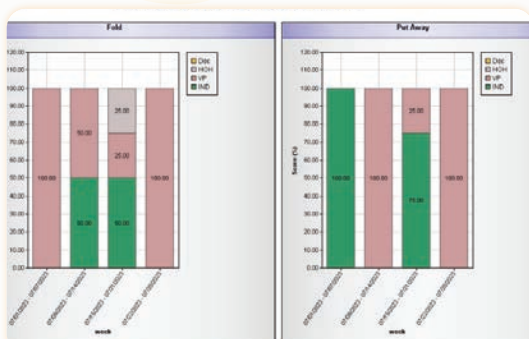

Video Storage & Streaming Designed for Service Providers

Therap's Secure Video Documentation module lets you maintain videos containing PHI in a HIPAA Compliant, highly secure environment. Attach videos to the Individual Home Page, Goal and Outcome Supports, Daily Notes or Incident Reports and Resolutions. Use videos to:

- Share people's personalities
- Enhance support training with more detail
- Document progress and accomplishments
- Show the environment where an incident occurred and corrective actions being taken

Tools for Data-Driven Decision Making

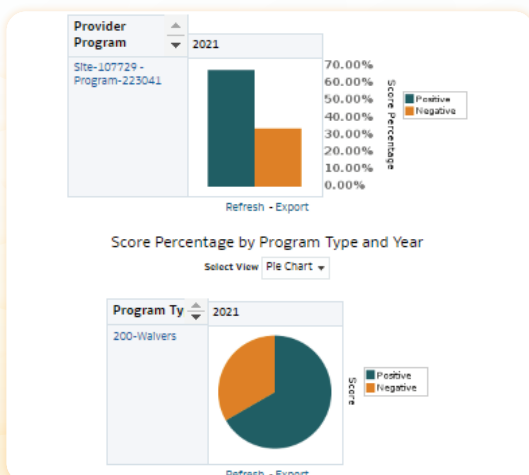

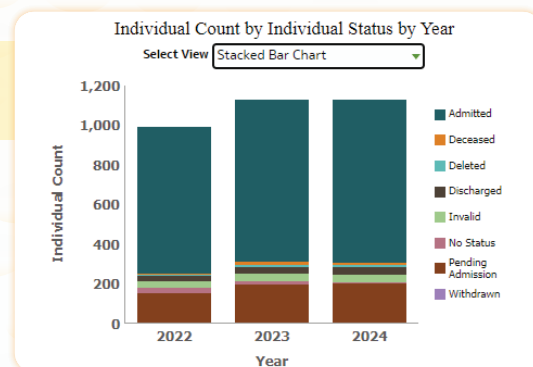

Built in Reporting Dashboards

- Multiple reporting options throughout the system
- Assess progress and outcomes for Individuals
- Ensure documentation compliance

Business Intelligence Dashboards

- Generate reports for various tools and billing functions
- Assist in quality assurance assessments
- Understand overall agency performance

Data-Driven Outcomes

- Harness service data to view/share intuitive graphical reporting
- Measure outcomes and the quality of services
- Identify trends to evaluate performance at the State, Provider, Program, Staff and Individual levels

Interoperability with External Systems

Extract data using Therap's External Data Feed for use in an external system or your organization's Business Intelligence platform.

Correlate and aggregate your Therap data with data stored in other platforms to enhance overall operations.

Automated Data Collection for Better Support

Therap Connect interfaces with smart devices to send data directly into your Therap system:

- 🕒 Promote Privacy & Independence for Individuals
- 🕒 Increase Accuracy and Transparency of Data Collection
- 🕒 Save Staff Time to Maximize Human Connection

“

I love the sleep mat! It really gives us the ability to make small changes that can do big things for our clients. We have seen a drop in primary care physician visits for health and behavioral issues that were stemming from constantly being tired due to lack of quality sleep. The Sleep Mat is able to detect what the human eye can't.

”

Therap[®] Connect User

About Our Current Tools

Sleep Analysis

Analyze sleep duration, sleep quality, breathing disturbances, heart rate and more without disruption to someone's night.

Body Composition

Build a comprehensive profile of body structure to understand trends over time; including weight, hydration, muscle mass, fat mass and more.

Vital Signs

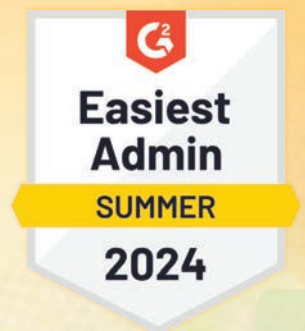

Simplify how you track blood pressure, heart rate, SpO2, blood glucose and body temperature with data visualizations and trend monitoring.

Activity Monitoring

Continuous monitoring of health metrics including pulse and step count collected by leading fitness wearables.

* Withings, iHealth & Fitbit marks are the property of their respective companies.

“

Therap has **completely streamlined** our documentation process for all of our providers and staff, making it easier to track progress notes, health data, etc for our individuals. **It's transformed how we operate** and has helped our providers with submitting their documentation monthly and on-time.
